City University of Hong Kong

CityU: A Leading Global University

CityU's success has been made possible by our commitment to creating an internationalised space for learning, our dedication to pursuing a research agenda designed to benefit society, our desire to establish a culture of innovation and discovery, and our mission to nurture student talent.

Hub of Professional Education

The College of Business has long-standing partnerships with the mainland and Hong Kong business community that reinforce Hong Kong's competitive edge. The college is one of the premier business schools in the world, accredited by AACSB International and EQUIS.

The scope of the College of Engineering encompasses transformational research and teaching areas as diverse as computer science; civil/electrical/biomedical/systems/mechanical engineering; materials science; and architecture and building technology. Our award-winning faculty spotlight the creation, development and dissemination of ground-breaking technologies that can improve life for future generations.

The **College of Liberal Arts and Social Sciences** is committed to conducting social science research that addresses critical social issues. Research projects cover a wide range of topics that expand our understanding of the human condition and development of human values.

The innovative programmes and world-class research offered at the **College of Science** maintain a meaningful impact on local, regional and global societies. Aligning closely with the strategic goals and developments of the University, the College creates new knowledge and pursues cutting-edge ideas at the frontiers of science study today.

The **Jockey Club College of Veterinary Medicine and Life Sciences**, the first of its kind in Hong Kong, serves as a leading local and regional centre of excellence in research and training. The College has launched the first 6-year Bachelor of Veterinary Medicine programme in Asia designed to meet strenuous international accreditation standards. Our partner in this endeavour is Cornell University, the top-ranked veterinary school in the world.

Hong Kong is one of the most influential and productive creative media hubs in the world, and CityU's **School of Creative Media** plays a central role in providing the talent that supports this well-earned reputation.

The **School of Data Science** is a strategic development of CityU to meet the demands of a data-driven economy in the future. It aims to become a world-class hub for excellence in this exciting new academic discipline.

The **School of Energy and Environment** is one of the few in the region to lead teaching and research in two of the most pressing issues of our time — environmental quality and sustainable development in Greater China and the Asia-Pacific region.

The **School of Law** aspires to be an internationally-renowned centre for research and the teaching of law. The school is distinguished by its strong commitment to scholarship in common law, comparative law and international law, with an emphasis on Chinese law.

Centre of Research Excellence

CityU has established itself as one of the most innovative universities in Asia, pioneering research in diverse fields that are of high relevance on pressing issues. The success of its research programmes is reflected in both the amount of funding received and the number of projects funded as well as the quality of its research output.

CityU is particularly well regarded for its many highly cited researchers. In the Research Assessment Exercise 2020 conducted by the University Grants Committee, over 70% of CityU research in areas of biology, electrical and electronic engineering, computer science/information technology, engineering, creative arts, performing arts and design are categorised "world leading" or "internationally excellent".

Global Focus, International Standards

Both the stature and sheer volume of CityU's relationships with global institutions continue to grow. This growth is also reflected in the quality of institutions with which CityU has developed academic links. The past few years have seen an increasing number of academic exchange programmes and partnerships between CityU and some of the most renowned institutions in the world, including University College London and University of Cambridge in the UK and Columbia University and Michigan State University in the US.

The CityU Shenzhen Research Institute aims to strengthen its collaboration with two state key laboratories and tertiary education institutions on the mainland. In addition, the CityU Chengdu Research Institute opens a new phase for CityU in the promotion of problem-driven research, professional education and incubation on the mainland.

CityU's enviable record of academic achievement is reinforced by the fact that a number of its faculty members hold positions with some of the most prestigious international research bodies in Asia and the rest of the world.

Like the incredible city in which it plays such an integral role, CityU continues to move, innovate, learn, teach and prosper.

COLLEGES & SCHOOLS

College of Business Departments

- Accountancy
- Economics and Finance
- Information Systems
- Management
- Management Sciences
- Marketing

College of Engineering Departments / Division

- Advanced Design and Systems Engineering
- Architecture and Civil Engineering
- Biomedical Engineering
- Computer Science
- Electrical Engineering
- Materials Science and Engineering
- Mechanical Engineering
- Building Science and Technology

College of Liberal Arts and Social Sciences

Departments

- Asian and International Studies
- Chinese and History
- English
- Linguistics and Translation
- Media and Communication
- Public Policy
- Social and Behavioural Sciences

College of Science

Departments

- Chemistry
- Mathematics
- Physics

Jockey Club College of Veterinary Medicine and Life Sciences

Departments

- Biomedical Sciences
- Infectious Diseases and Public Health
- Neuroscience
- Veterinary Clinical Sciences

CITYU

GRADUATE OUTCOMES

- ▶ Strategise competitively
- ▶ Conceptualise methodically
- ▶ Communicate professionally
- ▶ Apply results beneficially
- ▶ Become an independent scholar

- ▶ Strategise professionally
- ▶ Develop insights methodically
- ▶ Communicate Professionally
- ▶ Adopt knowledge with relevancy
- ▶ Become a professional-scholar

- ▶ Extend expertise professionally
- ▶ Think Analytically
- ▶ Communicate effectively
- ▶ Apply knowledge creatively
- ▶ Discover and innovate within the profession

- ▶ Learn continually
- ▶ Think critically
- ▶ Communicate effectively
- ▶ Act professionally
- ▶ Discover and innovate

IN PURSUIT OF EXCELLENCE

CityU's success in advancing its position among the top 55 in the world university rankings supports the direction in which the University is heading. As a leading global university excelling in research and professional education, CityU nurtures the talent and aspirations of its students and undertakes research with the goal of supporting social and economic advancement.
