

# BYME Engineering (Hong Kong) Limited

## Company Introduction

BYME Engineering (Hong Kong) Limited is a full M&E Package Building Services Specialist Firm from Hong Kong with an established presence around the region. Our firm was founded in 1990, as part of Dragages Hong Kong, a leading building and civil engineering construction company in Asia, operating under the global construction leader Bouygues Construction, which has since provided us with a strong global support in engineering solutions. Combining technical and project management expertise with a sustainable approach, we offer a diverse array of professional services:

- Registered General Building Contractor
- Electrical Services
- Energy Efficiency
- Extra Low Voltage (ELV) systems
- Facility Management
- Fire Services
- Industry-type Electrical Services
- Mechanical Ventilation & Air-conditioning
- Plumbing and Drainage

We also deliver turnkey, design & build with sustainability solutions.

Over the years, we have built a substantial clientele, comprised of government bodies, Mass Transit Railway operators, multinational corporations, building developers, contractors, architects, E&M consultants and several other organisations.

BYME is customer-focused and embraces its clients as partners, with whom it shares resources and roles, in a commitment to provide them with a total, engaging and satisfying service experience.
