Part II Course Details

1. Abstract

This course aims to enable students to:

- Describe essential theoretical concepts in sociolinguistics;
- Apply theoretical concepts to the analysis and discussion of language and society;
- Demonstrate an understanding of the complex relationship between language and society;
- Discover patterns of language use in real-life situations;
- Research and analyze language issues in different contexts from a sociolinguistic perspective; and
- Evaluate language issues in different contexts and create solutions.

2. Course Intended Learning Outcomes (CILOs)

(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to self-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

3.

Teaching and Learning Activities (TLAs) (TLAs designed to facilitate students' achievement of the CILOs.)
