### 1. Abstract

*(A 150-word description about the course)*

The purpose of this course is to examine current issues and topics in the field of communication, the impact of the issues on different aspects of social life, and the approaches that scholars used to study these issues. The students will identify the issues and topics important for communication research, review related literature, discuss the approaches to analyze and understand them, select issues of their interest, and study them using appropriate approaches and methods.
