City University of Hong Kong Course Syllabus

offered by Department of Information Systems with effect from Semester A 2024 / 2025

Part I Course Overv	iew
Course Title:	Knowledge Management
Course Code:	IS6921
Course Duration:	One Semester (13 weeks)
Credit Units:	_3
Level:	P6
Medium of Instruction:	English
Medium of Assessment:	English
Prerequisites: (Course Code and Title)	Nil
Precursors: (Course Code and Title)	Nil
Equivalent Courses: (Course Code and	
Title) Exclusive Courses: (Course Code and	IS6921M Knowledge Management
Title)	Nil

1

Part II Course Details

1. Abstract

This course aims to:

- Introduce students to the fundamental concepts in the study of knowledge and its management, including the processes of creation, capture, sharing, and application.
- Develop students' analytical skills in the evaluation of current trends in knowledge management and their manifestations in business and industry.
- Develop students' practical skills in the implementation and management of KM practices across different business domains.

2. Course Intended Learning Outcomes (CILOs)

(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)

No.	CILOs	Weighting (if applicable)	curricu learnin (please approp		lated omes where
1.	Describe and communicate the key concepts of applying	20%	Al	A2	A3
1.	knowledge management to enable organisations to achieve sustainable competitive advantages.	2070			
2.	Gain insights to the core methods, techniques, and tools for knowledge management enabled by information technology.	25%			
3.	Critically analyse the role and use of knowledge in organizations and institutions, and identify and evaluate the typical obstacles that KM aims to overcome.	20%	✓	√	
4.	Apply creative problem solving skills in planning specific KM implementation and management strategies with reference to the business environment of specific organisations.	20%	√	√	√
5.	Discover how emerging information systems applications can affect knowledge-based organisations and knowledge workers in the future.	15%	√	√	
		100%			

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to real-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

Learning and Teaching Activities (LTAs) (LTAs designed to facilitate students' achievement of the CILOs.)

IS6921 is taught as a 3 hour seminar.

Seminars are designed to contain a mix of "lecture" and "discussion", the latter often supported by case analysis.

LTA	Brief Description	CII	CILO No.				Hours/week
	_	1	2	3	4	5	(if applicable)
LTA1.	Students will learn the concepts and	✓	✓	√			
Lecture	applications of knowledge, and students are						
	required to undertake a number of different						
	activities designed to facilitate their learning.						
	These may include such activities as (but not						
	limited to) problem solving, individual						
	review and reflection, small group						
	discussions, and large classroom discussions.						
LTA2.	Students will learn and discuss specific cases	✓	✓	✓	✓	✓	
Case Studies	of knowledge management practices and						
	applications from real-world organisational						
	contexts.						
LTA3.	Students will learn various technologies that				✓	✓	
Demonstrations	can be applied to knowledge management						
	through system demonstrations.						
LTA4.	Students will develop the hands-on skills for			✓	✓	✓	
Group Project	assessing knowledge management practices						
	and designing knowledge management						
	solutions to organisational problem						
	situations.						
LTA5.	Students will conduct an on-line discussion	✓	✓	✓	✓	✓	
On-Line	for self-reflection and sharing concepts,						
Discussion	techniques, and methods of knowledge						
	management among students within or after						
	formal classes.						

4. Assessment Tasks/Activities (ATs)
(ATs are designed to assess how well the students achieve the CILOs.)

Assessment Tasks/Activities		O No.			Weighting	Remarks	
	1	2	3	4	5		
Continuous Assessment: 50%							
AT1. Seminar Exercises and Participation	✓	✓	✓	✓	✓	10%	
Each seminar consists of exercises, small group							
discussions, self-reflection, or student presentations to							
assess students' understanding of the chosen topics							
and their abilities to apply their skills.							
AT2. KM Assessment Project	✓	✓	✓		✓	20%	
Phase 1 of a group project, which includes a project							
report and presentation, will be assigned to help							
students identify knowledge management scenarios							
and assess knowledge management practices in a real							
organization.							
AT3. KM Solution Project	✓	✓		✓	✓	20%	
Phase 2 of the group project, which includes a project							
report and presentation, will be allocated to help							
students propose how to apply knowledge							
management processes and technologies to support							
knowledge management problem scenarios as							
identified in KM the Assessment Project.							
Examination: 50% (duration: one 2-hour exam)							
AT4. Examination	✓	✓	✓	✓	✓	50%	
A written examination is developed to assess each							
student's competence level of the taught subjects.							
						100%	

Note: Students must pass BOTH coursework and examination in order to get an overall pass in this course.

5. Assessment Rubrics

(Grading of student achievements is based on student performance in assessment tasks/activities with the following rubrics.)

Applicable to students admitted before Semester A 2022/23 and in Semester A 2024/25 & thereafter

Assessment Task	Criterion	Excellent (A+, A, A-)	Good (B+, B, B-)	Fair (C+, C, C-)	Marginal (D)	Failure (F)
AT1. Seminar Exercises and Participation	Ability to describe and communicate the key concepts of applying knowledge management to enable organisations to achieve sustainable competitive advantages	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Ability to gain insights to the core methods, techniques, and tools for knowledge management enabled by information technology	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Capability to critically analyse the role and use of knowledge in organizations and institutions, and identify and evaluate the typical obstacles that KM aims to overcome	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Capability to develop creative problem solving skills in planning specific KM implementation and management strategies with reference to the business environment of specific organisations	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Capability to discover how emerging information systems applications can affect knowledge-based organisations and knowledge workers in the future	High	Significant	Moderate	Basic	Not even reaching marginal levels
AT2. KM Assessment Project	Ability to describe and communicate the key concepts of applying knowledge management to enable organisations to achieve sustainable competitive advantages	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Ability to gain insights to the core methods, techniques, and tools for knowledge management enabled by information technology	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Capability to critically analyse the role and use of knowledge in organizations and institutions, and identify and evaluate the typical obstacles that KM aims to overcome	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Capability to discover how emerging information systems applications can affect knowledge-based organisations and knowledge workers in the future	High	Significant	Moderate	Basic	Not even reaching marginal levels
AT3. KM Solution Project	Ability to describe and communicate the key concepts of applying knowledge management to enable organisations to achieve sustainable competitive advantages	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Ability to gain insights to the core methods, techniques, and tools for knowledge management enabled by information technology	High	Significant	Moderate	Basic	Not even reaching marginal levels

	Capability to develop creative problem solving skills in planning specific KM implementation and management strategies with reference to the business environment of specific organisations	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Capability to discover how emerging information systems applications can affect knowledge-based organisations and knowledge workers in the future	High	Significant	Moderate	Basic	Not even reaching marginal levels
AT4. Examination	Ability to describe and communicate the key concepts of applying knowledge management to enable organisations to achieve sustainable competitive advantages	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Ability to gain insights to the core methods, techniques, and tools for knowledge management enabled by information technology	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Capability to critically analyse the role and use of knowledge in organizations and institutions, and identify and evaluate the typical obstacles that KM aims to overcome	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Capability to develop creative problem solving skills in planning specific KM implementation and management strategies with reference to the business environment of specific organisations	High	Significant	Moderate	Basic	Not even reaching marginal levels
	Capability to discover how emerging information systems applications can affect knowledge-based organisations and knowledge workers in the future	High	Significant	Moderate	Basic	Not even reaching marginal levels

Applicable to students admitted from Semester A 2022/23 to Summer Term 2024

Assessment Task	Criterion	Excellent	Good	Marginal	Failure
		(A^{+}, A, A^{-})	(B+, B)	(B-, C+, C)	(F)
AT1. Seminar Exercises and Participation	Ability to describe and communicate the key concepts of applying knowledge management to enable organisations to achieve sustainable competitive advantages		Significant	Basic	Not even reaching marginal levels

	Capability to critically analyse the role and use of knowledge in organizations and institutions, and identify and evaluate the typical obstacles that KM aims to overcome		Significant	Basic	Not even reaching marginal levels
	Capability to develop creative problem solving skills in planning specific KM implementation and management strategies with reference to the business environment of specific organisations		Significant	Basic	Not even reaching marginal levels

	Capability to discover how emerging information systems applications can affect knowledge-based organisations and knowledge workers in the future	High	Significant	Basic	Not even reaching marginal levels
AT2. KM Assessment Project	Ability to describe and communicate the key concepts of applying knowledge management to enable organisations to achieve sustainable competitive advantages	High	Significant	Basic	Not even reaching marginal levels
	Ability to gain insights to the core methods, techniques, and tools for knowledge management enabled by information technology	High	Significant	Basic	Not even reaching marginal levels
	Capability to critically analyse the role and use of knowledge in organizations and institutions, and identify and evaluate the typical obstacles that KM aims to overcome	High	Significant	Basic	Not even reaching marginal levels
	Capability to discover how emerging information systems applications can affect knowledge-based organisations and knowledge workers in the future	High	Significant	Basic	Not even reaching marginal levels
AT3. KM Solution Project	Ability to describe and communicate the key concepts of applying knowledge management to enable organisations to achieve sustainable competitive advantages	High	Significant	Basic	Not even reaching marginal levels
	Ability to gain insights to the core methods, techniques, and tools for knowledge management enabled by information technology	High	Significant	Basic	Not even reaching marginal levels
	Capability to develop creative problem solving skills in planning specific KM implementation and management strategies with reference to the business environment of specific organisations	High	Significant	Basic	Not even reaching marginal levels
	Capability to discover how emerging information systems applications can affect knowledge-based organisations and knowledge workers in the future	High	Significant	Basic	Not even reaching marginal levels
AT4. Examination	Ability to describe and communicate the key concepts of applying knowledge management to enable organisations to achieve sustainable competitive advantages	High	Significant	Basic	Not even reaching marginal levels
	Ability to gain insights to the core methods, techniques, and tools for knowledge management enabled by information technology	High	Significant	Basic	Not even reaching marginal levels
	Capability to critically analyse the role and use of knowledge in organizations and institutions, and identify and evaluate the typical obstacles that KM aims to overcome	High	Significant	Basic	Not even reaching marginal levels
	Capability to develop creative problem solving skills in planning specific KM implementation and management strategies with reference to the business environment of specific organisations	High	Significant	Basic	Not even reaching marginal levels
	Capability to discover how emerging information systems applications can affect knowledge-based organisations and knowledge workers in the future	High	Significant	Basic	Not even reaching marginal levels

Part III Other Information (more details can be provided separately in the teaching plan)

1. Keyword Syllabus

(An indication of the key topics of the course.)

- The key concepts of knowledge management: the differences between data, information, and knowledge; knowledge management processes; knowledge management strategies; knowledge management infrastructure;
- Knowledge management assessment: Qualitative KM assessments, Quantitative KM assessments;
- KM practices/mechanisms and technologies: types of KM practices/mechanisms, technologies supporting knowledge management processes, relationship between type of support and technology

2. Reading List

2.1 Compulsory Readings

(Compulsory readings can include books, book chapters, or journal/magazine articles. There are also collections of e-books, e-journals available from the CityU Library.)

1.	Nil
2.	
3.	

2.2 Additional Readings

(Additional references for students to learn to expand their knowledge about the subject.)
