

**City University of Hong Kong  
Course Syllabus**

**offered by School of Law  
with effect from Semester A 2023/2024**

**Part I Course Overview**

**Course Title:** Energy and Environmental Law

**Course Code:** LW6149E

**Course Duration:** One Semester

**Credit Units:** 3

**Level:** P6

**Medium of Instruction:** English

**Medium of Assessment:** English

**Prerequisites:**  
*(Course Code and Title)* Nil

**Precursors:**  
*(Course Code and Title)* Nil

**Equivalent Courses:**  
*(Course Code and Title)* LW6959 Energy and Environmental Law

**Exclusive Courses:**  
*(Course Code and Title)* Nil

## Part II Course Details

### 1. Abstract

This course aims to

- 1) Enable students to:
  - (i) learn, comprehend, apply, evaluate and reflect upon the rules and principles of international environmental law.
  - (ii) Identify and critically analyse the links between international environmental law, energy resources and economic development.
  - (iii) Understand and analyse the links between the international environmental law principles and the applicable environmental laws at Hong Kong.
- 2) Promote an attitude of critical and reflective learning of environmental law within common law context, Hong Kong public law and international environmental law to understand its theoretical underpinnings and its historical and political context;
- 3) Impart advanced skills to students to discover and assess in comparative context the rules of state responsibility & dispute settlement procedures for environmental law claims including environmental protection and right to development before courts/tribunals and develop their own independent thesis/advice/opinion;
- 4) Conduct advanced legal research in this area by identifying and using sources appropriate for high-level professional and/or post-graduate academic legal work.

### 2. Course Intended Learning Outcomes (CILOs)

*(CILOs state what the student is expected to be able to do at the end of the course according to a given standard of performance.)*

No.	CILOs	Weighting (if applicable)	Discovery-enriched curriculum related learning outcomes (please tick where appropriate)		
			A1	A2	A3
1.	Analytically describe and explain <ul style="list-style-type: none"> <li>➤ legal rules, doctrines and practices of international environmental law</li> <li>➤ the links between international environmental law, energy resources and economic development.</li> <li>➤ the links between the international environmental law principles and the applicable environmental laws at Hong Kong</li> </ul>	30%	√	√	
2.	Apply in comparative context the rules of state responsibility and dispute settlement procedures for international environmental law claims and discussion of energy utilization before international institutions, courts and tribunals <ul style="list-style-type: none"> <li>➤ To solve hypothetical problems affecting individuals, corporations and inter-state.</li> <li>➤ Identify and question adverse practices within regional and international context.</li> <li>➤ Offer possible alternative solutions in context of contemporary problems faced in Hong Kong.</li> <li>➤ Communicate both orally and in writing any advice or independent opinion for resolution of environmental claim.</li> </ul>	30%	√	√	√

3.	Critically assess and evaluate opinions by courts and international scholarship on various environmental principles and rules and develop their own independent thesis.	20%	√	√	
4.	Conduct advanced legal research in this area by identifying and using sources appropriate for high-level professional and/or post-graduate academic legal work.	20%	√	√	√
		100%			

A1: *Attitude*

*Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.*

A2: *Ability*

*Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to self-life problems.*

A3: *Accomplishments*

*Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.*

### 3. Teaching and Learning Activities (TLAs)

*(TLAs designed to facilitate students' achievement of the CILOs.)*

TLA	Brief Description	CILO No.				Hours/week (if applicable)
		1	2	3	4	
Lectures	<ul style="list-style-type: none"> <li>A weekly outline of the taught topics and recommended lists of reading will be distributed. Students must read the basic assigned preparatory literature and cases prior to and after each lecture.</li> <li>For each week's topic, a general preparatory reading of chapters in a reputed textbook and journal articles will be assigned, which will provide a framework as well as introduce students to the detailed topics to be covered in that seminar.</li> <li>The seminars are designed to explore difficult environmental law issues through advanced discussion, problem based group activities and student's presentations touching the theoretical topics covered in each weekly seminar. Seminars will be based on an interactive learning and exchange of ideas between the lecturer and the students.</li> <li>Seminars will draw nexus of various aspects of international environmental law with domestic law. The lecturer/course leader will seek to identify students' prior knowledge and experience and fill gaps in their prior knowledge by raising critical questions which will enhance student's in-depth understanding of environmental law and its operation in practice.</li> </ul>	√	√	√	√	3 hours/week or a total of 39 hours of teaching

Classroom interaction	<ul style="list-style-type: none"> <li>The course leader will allocate around 45 minutes to one hour per class since the second class as Q&amp;A interaction session. Students are expected to participate actively in these sessions to enhance the understanding of concepts of energy and environmental law; In order to train and develop advanced critical thinking and problem-solving skills, problem-based learning in class will be encouraged to allow students to identify, summarize and present relevant environmental law principles involved in particular problem based on cases or scholarly opinions.</li> </ul>		√	√	√	
Group presentation	<ul style="list-style-type: none"> <li>Students will be divided into groups to prepare a presentation on topic assigned. Students present their arguments based on international or local environmental law/legal principles and cases. They are expected to identify scope and limitations of their topic in the contemporary international arena. Students also will be encouraged to comment on their classmates' presentations. The presentations will provide students an opportunity to express their point of view in a coherent manner and develop their presentation skills.</li> </ul>					

#### 4. Assessment Tasks/Activities (ATs)

(ATs are designed to assess how well the students achieve the CILOs.)

Assessment Tasks/Activities	CILO No.				Weighting	Remarks
	1	2	3	4		
Continuous Assessment: 30%						
Class interaction (including: Q&A session)	√	√	√	√	10%	
Group Presentation	√	√	√	√	20%	
Examination: 70% (duration: 2 hours)						
Examination (Typewritten)	√	√	√	√	70%	
					100%	

##### Applicable to students admitted before Semester A 2022/23

Students must obtain a minimum mark of 40% in examination and an overall mark of 40% in order to pass the course.

When University facilities and resources are available, students are required to take a computer-based examination in computer labs. During the examination, students are blocked from access to the Internet.

##### Applicable to students admitted in Semester A 2022/23 and thereafter

Students must obtain a minimum mark of 50% in examination and an overall mark of 50% in order to pass the course.

When University facilities and resources are available, students are required to take a computer-based examination in computer labs. During the examination, students are blocked from access to the Internet.

##### Assessment

Participation during the classroom interaction, such as Q&A session will allow students to demonstrate their capacity to understand, analyse and apply rules and principles to the problem concerned. Some of the more difficult questions will require students to demonstrate their ability to synthesise international and local environmental law material and be able to advise clients or companies in novel situations. Responses in these sessions will enable students and teachers to assess the adequacy of learning and how to improve it where necessary. Students will also receive comments which will allow them to fill gaps in their knowledge. Students' performance during the class interaction will be assessed. This will count as 10% of the assessment.

Students will also be divided into groups to make a presentation on an assigned topic relating to energy and environmental law. This will assess their ability to synthesise primary and secondary material into a coherent and persuasive argument, which will count as 20%. Students will receive comments from the course leader. Other students are also encouraged to provide the feedback to presenter(s).

The remaining 70% of assessment is in the form of an examination. This will test knowledge and understanding of the rules and principles and ability to apply these rules and principles to particular sets of circumstances.

### **Core General Skills Assessment**

The core general skills assessment will include developing student's ability to:

- select, evaluate, analyse, summarise and process relevant print and electronic data/resources;
- develop and express in a coherent and cogent manner relevant arguments;
- demonstrate critical, original and independent thinking;
- select, use and cite relevant sources appropriately, focusing on academic and legal works;
- select appropriate content and language to suit context and intended audience; and
- communicate ideas clearly, coherently and accurately in their own words and in plain English.

## 5. Assessment Rubrics

(Grading of student achievements is based on student performance in assessment tasks/activities with the following rubrics.)

Applicable to students admitted before Semester A 2022/23

Assessment Task	Criterion	Excellent (A+, A, A-)	Good (B+, B, B-)	Fair (C+, C, C-)	Marginal (D)	Failure (F)
1. <u>Class Participation</u>	Demonstrate mastery of CILOs through participation in lecture and/or tutorial discussion, which includes asking questions about areas of uncertainty, responding to questions by the lecturer/tutor. and presenting on assigned topics in class.	Excellent student performance with respect to the achievement of the applicable CILOs.	Good student performance with respect to the achievement of the applicable CILOs.	Fair student performance with respect to the achievement of the applicable CILOs.	Marginal student performance with respect to the achievement of the applicable CILOs.	Student failed to achieve the applicable CILOs.
2. Group Presentation	Students will be divided into groups for presenting on assigned topics. Students will be graded on their understanding and application of the law, as well as their ability to provide the audience with evidence of a persuasive legal argument.	Excellent student performance with respect to the achievement of the applicable CILOs.	Good student performance with respect to the achievement of the applicable CILOs.	Fair student performance with respect to the achievement of the applicable CILOs.	Marginal student performance with respect to the achievement of the applicable CILOs.	Student failed to achieve the applicable CILOs.
3. <u>Examination</u>	The examination will test students' ability to apply legal principles to problem style questions on topics not covered in the assignment.	Excellent student performance with respect to the achievement of the applicable CILOs.	Good student performance with respect to the achievement of the applicable CILOs.	Fair student performance with respect to the achievement of the applicable CILOs.	Marginal student performance with respect to the achievement of the applicable CILOs.	Student failed to achieve the applicable CILOs.

Applicable to students admitted in Semester A 2022/23 and thereafter

Assessment Task	Criterion	Excellent (A+, A, A-)	Good (B+, B)	Marginal (B-, C+, C)	Failure (F)
1. <u>Class Participation</u>	Demonstrate mastery of CILOs through participation in lecture and/or tutorial discussion, which includes asking questions about areas of uncertainty, responding to questions by the lecturer/tutor. and presenting on assigned topics in class.	High	Significant	Moderate	Not even reaching basic levels
2. Group Presentation	Students will be divided into groups for presenting on assigned topics. Students will be graded on their understanding and application of the law, as well as their ability to provide the audience with evidence of a persuasive legal argument.	High	Significant	Moderate	Not even reaching basic levels
3. <u>Examination</u>	The examination will test students' ability to apply legal principles to problem style questions on topics not covered in the assignment.	High	Significant	Moderate	Not even reaching basic levels

## Part III Other Information (more details can be provided separately in the teaching plan)

### 1. Keyword Syllabus

(An indication of the key topics of the course.)

- Environmental law
- International governance and the formulation of environmental law and policy
- Climate change law and policy
- Protection of the marine environment
- The evolution of energy law and regulation
- Renewable energy law and policy
- The nexus between environmental law and energy law
- Trade, energy and the environment
- Environmental protection and low-carbon energy transition in the 21<sup>st</sup> century

### 2. Reading List

#### 2.1 Compulsory Readings

(Compulsory readings can include books, book chapters, or journal/magazine articles. There are also collections of e-books, e-journals available from the CityU Library.)

1.	Makuch and Pereira (eds) <i>Environmental and Energy Law</i> (Wiley-Blackwell, 2012, UK), (Chapters 1, 2, 6, 9, 17 and 22)
2.	Birnie, Boyle and Redgwell, <i>International Law and the Environment</i> (3 <sup>rd</sup> ed., OUP: 2009)
3.	Bell, McGillivray and Pedersen, <i>Environmental Law</i> (8th edition. Oxford University Press, 2013)
4.	Bodansky, Brunnée and Hey (eds) <i>The Oxford Handbook of International Environmental Law</i> (OUP: 2008)
5.	Sands and Peel, <i>Principles of International Environmental Law</i> (3 <sup>rd</sup> ed. Cambridge University Press. 2012)
6.	Bodansky, Brunnee and Rajamani, <i>International Climate Change Law</i> (2017)

#### 2.2 Additional Readings

(Additional references for students to learn to expand their knowledge about the subject.)

1.	Bernstein, Duff & Green, <i>A Globally Integrated Climate Policy for Canada</i> (Toronto: University of Toronto Press, 2007).
2.	Chayes & Handler Chayes, <i>The New Sovereignty: Compliance with International Regulatory Agreements</i> (Cambridge, MA: Harvard University Press, 1995).
3.	Louka, <i>International Environmental Law: Fairness, Effectiveness, and World Order</i> (Cambridge University Press, 2006)
4.	McGillivray, <i>Blackstone's environmental legislation</i> (6 <sup>th</sup> ed., Oxford University Press, 2006)
5.	Alder and Wilkinson, <i>Environmental Law &amp; Ethics</i> , (Macmillan Press Limited (1999).
6.	Kramer & Fusaro, <i>Energy and Environmental Trading: US Law and Taxation</i> (Cameron: 2008)
7.	Dixon, McCorquodale and Williams, <i>Cases and materials on international law</i> (5 <sup>th</sup> ed., Oxford University Press, 2011)
8.	J. Crawford, SC, FBA., <i>Brownlie's principles of public international law</i> (8 <sup>th</sup> ed., Oxford University Press, [2012])
9.	Shaw, <i>International Law</i> (6 <sup>th</sup> ed., Cambridge University Press, 2008).
