

City University of Hong Kong

Department of Physics

Materials Physics Stream for Bachelor of Science in Applied Physics

Applicable to students admitted to the major in 2017/18 and before

15 Credit Units from the following courses		
Course Code	Course Title	Credit Units
AP3171	Materials Characterization Techniques	3
AP4120	Microelectronic Materials and Processing	3
AP4121	Thin Film Technology and Nanocrystalline Coatings	3
AP4127	Smart Sensors: From Engineering to Applications	3
AP4216	Project (Materials Physics related)	3
AP4217	Dissertation (Materials Physics related)	6
AP4265	Semiconductor Physics and Devices	3
