

Materials and Aids Permitted for Examinations
Semester A 2024/25
 ~ Taught Postgraduate Courses ~

- Materials and aids permitted for each examination provided by the Course Leaders as at 2 December 2024 are listed below.
- Please note that **this list is for reference only** and may not cover all courses. Students should check with the instructor(s) of respective courses for materials and aids permitted for each examination.

- Students may only bring with them materials permitted by the Course Leader to an examination. It is the students' responsibility to check with their instructors for such items prior to an examination.
- Students have to put their personal belongings and any unauthorised materials inside a bag which can be closed properly and place it beside the aisles (in lecture theatres and classrooms)/under their chairs (in Multi-purpose Rooms). Mobile phones and all electronic devices (except for those specifically permitted for individual examinations) should be switched off and put inside a properly closed bag. If they are unable to put their belongings and materials properly inside their bags, invigilators may ask the students to take them to the front of the venue.
- If any unauthorised materials are found on a student during an examination, including all electronic devices with cellular connectivity, mobile applications installed or wireless technologies supported (e.g. mobile phone, tablet, smart watch, electronic dictionary, pager, MP3 players), irrespective of whether the devices are turned on and whether they contain material relevant to the examination, the case will be referred to the Head/Dean of the course-offering academic unit for investigation in accordance with the University's [Rules on Academic Honesty](#). Disciplinary action will be taken against the student which may lead to a failing grade in the concerned course or other serious penalties.
