Message from Council Chairman

校董會主席獻辭

Mr Lester Garson Huang, SBS, JP

Chairman of the Council
City University of Hong Kong

黃嘉純先生, SBS, JP

香港城市大學校董會主席

At the beginning of 2024, which also marks the 30th anniversary of City University of Hong Kong (CityU), it gives me great pleasure to announce the establishment of the CityU Academy of Innovation (the “Academy”). This marks another significant step in our ongoing commitment to nurturing young entrepreneurs and tech talent, incubating deep-tech start-ups, and translating CityU’s research achievements and intellectual property into practical applications to benefit society, as an integral part of our large-scale flagship innovation and entrepreneurship programme, HK Tech 300.

Our academic excellence and scientific research capabilities have earned international recognition. This includes 27 faculty members being named Highly Cited Researchers in 2023 by Clarivate, placing CityU 44th worldwide and 10th in Asia. Additionally, CityU is ranked 70th in the QS World University Rankings 2024 and 82nd in the THE World University Rankings 2024.

Outstanding research should not be confined to laboratories and academic publications. Successful commercialisation of R&D outcomes requires a collaborative effort among government, industry, academia and researchers together contributing to a thriving ecosystem which enables tech start-ups to grow sustainably.

This was the driving force behind the launch of HK Tech 300 in March 2021, whose aim is to provide very much needed early-stage support for start-up teams. Thanks to the tremendous support from the CityU community and Hong Kong society, particularly the innovation and technology (I&T) sector, the programme has incubated over 790 start-up teams and companies.

We must continue with our efforts. The establishment of the Academy reinforces our vision of HK Tech 300 in cultivating talent and shaping a society driven by I&T advancement, aligned with the national strategy of making I&T central to the country’s overall development. The Academy will offer ground breaking academic programmes of innovation and venture creation. These will empower our new generation to “Venture Beyond Boundaries”, thereby injecting new impetus into Hong Kong’s economy as a whole, and the I&T ecosystem in particular, and bolstering the development of the city as an international innovation and technology hub.

I extend my best wishes for the success of the Academy.

踏入2024年之初，同時是香港城市大學(城大)30周年的誌慶，我很高興在此宣布成立「城大創新學院」，這是我們在致力培育年輕科創人才與創業家方面的另一重要舉措。城大創新學院作為我們大型創新創業計劃HK Tech 300不可或缺的一環，將積極孵化更多深科技初創企業，並推動城大的科研成果及知識產權轉為實際應用，以造福社會。

城大的學術水平及科研實力備受國際肯定。最近，我們不但有27位學者獲列入科睿唯安的「2023年度最廣獲徵引研究人員」名單，位列全球44及亞洲第十，更分別於2024年QS世界大學排名第70位，以及於2024年泰晤士高等教育世界大學排名第82位，成績有目共睹。

優秀的科研成果不應只出版於學術期刊，或局限於實驗室內。科研成果得以達至商品化，全賴「官、產、學、研」通力合作，共同建設蓬勃的初創生態圈，讓科創企業可持續發展。

這正是我們於2021年3月推出HK Tech 300的原動力，致力為初創團隊在萌芽初階，提供關鍵的支持。有賴城大社群和香港社會各界、尤其是創新及科技業界的鼎力支持，HK Tech 300至今已成功培育了超過790支初創團隊及企業。

我們必須繼續努力。新成立的城大創新學院強化了HK Tech 300對培育人才、以創新科技推動社會發展的決心，亦與國家以創新科技作為整體發展核心的策略一致。城大創新學院將提供突破性的創新及創業學術課程，讓我們的新一代能夠實現「創科無限、引領未來」，為香港的創科生態以至整體經濟增長注入新動力，協助香港進一步發展成為國際創新科技中心。

我謹此祝願城大創新學院取得豐碩成果。

As a leading university in innovation education and entrepreneurship, City University of Hong Kong (CityU) is dedicated to fostering an inspirational, interactive and innovative learning environment. To continue our efforts to achieve global leadership in innovative education and talent development, we are proud to introduce the CityU Academy of Innovation (the “Academy”), whose aim is to equip a new generation of leaders who will spearhead technological advancement and economic growth in Hong Kong and beyond.

Universities are powerhouses for cultivating talent, developing knowledge and driving innovation, all of which are essential for societal and economic growth. In this new era, in which science sparks innovation, and innovation propels development, this role is more important than ever, especially in a city like Hong Kong. Universities have to nurture talent who can invent and create, lead and establish new industries, in addition to supporting existing ones. To achieve this, translating research into commercialisation is the key, and the Academy is designed to bridge this gap.

By offering a series of academic programmes at the PhD, Master of Science (MSc) and undergraduate (UG) levels on innovation and venture creation, the Academy will further promote innovation education and entrepreneurship. It aims to inspire students to shape the future through innovation and the creation of deep-tech start-ups. Through the support of seasoned industrialists and entrepreneurs in the I&T sector in the programmes, the Academy will also promote university-industry collaboration.

As an integral part of HK Tech 300, the Academy will serve as a regional hub for nurturing young tech talent who are bold enough to go forward, innovate, and create new products and deep-tech start-ups. Building on the success of HK Tech 300, we will lead the way in driving research and innovation development in Hong Kong and beyond.

香港城市大學(城大)作為推動創新教育及創業的領先大學，致力建構富啟發性、互動性及創新性的學習環境。為持續鞏固大學在創新教育及人才發展的國際領先地位，我們很榮幸設立「城大創新學院」，旨在培育新一代領袖，引領香港以至整個地區的科技進步及經濟增長。

大學是培育人才、發展知識及推動創新的重要引擎，對社會及經濟增長至關重要。在以科學引領創新、以創新推動發展的新時代，大學這一角色，尤其是在香港這城市，變得更為重要。大學培育的人才，除了支援現有的產業發展，也應能夠發明、創造、帶領及建立新的產業。要達致這目標，將研究成果商品化是關鍵所在，而城大創新學院正是兩者之間的橋樑。

城大創新學院將提供一系列有關創新創業的學術課程，包括哲學博士、理學碩士及本科課程，進一步推動創新及創業教育，啟發學生透過創新及創建深科技初創企業，塑造未來。學院在來自創科界的資深工業家及創業家的支持下，亦將促進大學及產業之間的合作。

作為HK Tech 300計劃不可或缺的一部分，城大創新學院將成為區域樞紐，培育勇於開拓、創新及創造新產品及深科技初創企業的年輕科技人才。我們在HK Tech 300成功的基石上，將引領香港以至整個地區的科技及創新發展。

CityU is committed to nurturing students' talent through inspirational and interactive education, creating new knowledge through world-class research to address global challenges, and promoting innovation and technology for social and economic advancement.

In March 2021, CityU launched HK Tech 300, a large-scale flagship innovation and entrepreneurship programme, whose aim is to provide growth opportunities and entrepreneurial experience for young people and translate CityU's research achievements into practical applications through the establishment of tech start-ups. With an investment of HK\$600 million, and thanks to the support of our strategic partners, co-investors, supporting organisations, and over 160 mentors, comprising experienced entrepreneurs and senior executives, HK Tech 300 has cultivated over 790 start-up projects founded by our students, alumni and other young people in Hong Kong, utilising CityU's intellectual property. The Programme has also been expanded to the Mainland and Southeast Asia, partnering with local governments, universities, innovation incubators and our alumni network, to nurture promising start-ups and foster a thriving start-up ecosystem in the region.

The CityU Academy of Innovation (the "Academy") forms an integral part of HK Tech 300 and reaffirms our commitment to tech talent development and deep-tech venture creation.

I would like to express my appreciation to the Academy Advisors of the Academy, who have made substantial contributions and offered invaluable support and insights towards the development of HK Tech 300 and the establishment of the Academy. My gratitude also extends to the Affiliate Professors, distinguished faculty members with knowledge-transfer experience from the various colleges, schools and departments of CityU, and the Adjunct Professors, esteemed industry figures, and experienced professionals in innovation and entrepreneurship who will assume mentoring roles in upcoming courses in the Academy. Special thanks go to the Visiting Professors for their advice and expertise in developing the "GRIT" programme and offering courses in other programmes for the Academy.

With the support of the CityU community and society as a whole, we will continue to elevate our efforts to develop a leading ecosystem that nurtures young entrepreneurs, incubates deep-tech start-ups, and promotes university-industry collaboration in Hong Kong and beyond.
