5. Assessment Rubrics

(Grading of student achievements is based on student performance in assessment tasks/activities with the following rubrics.)

Assessment Task	Criterion	Excellent	Good	Fair	Marginal	Failure
		(A+, A, A-)	(B+, B, B-)	(C+, C, C-)	(D)	(F)
1. Exam		Strong evidence of original thinking conducive to applying theoretical concepts to coin creative recommendations/ solutions; good organization, capacity to analyze and synthesize; superior grasp of subject matter; evidence of extensive knowledge base.	Evidence of grasp of subject, some evidence of critical capacity and analytical ability conducing to innovative application of concepts to solve problems; reasonable understanding of issues; evidence of familiarity with the subject matter.	Student who is profiting from the university experience; understanding of the subject; ability to develop solutions to simple problems in the material.	Sufficient familiarity with the subject matter to enable the student to progress.	Little evidence of familiarity with the subject matter; weakness in critical and analytical skills; limited or irrelevant use of literature.
2. Group Project and Presentation	Group Projects	As in B, but with higher degree of originality and even good evidence of reflection on own performance based on theory. Generalizes principles, models or practices to new and unfamiliar real-life contexts.	The evidence presents a good appreciation of the general thrust of the case with relevant and accurate support of concepts taught in class. A clear view of how various aspects of the case integrate to form a purpose. Solutions or recommendations well justified.	The evidence is relevant, accurate. However, there is little evidence of an overall extensive view of the case issues. Able to discuss content meaningfully but little application or integration of items. Fair justification of solutions or recommendations.	Pieces of evidence are relevant and accurate, but analyses are isolated, addressing a limited number of issues. Demonstration of understanding in a minimally acceptable way. Insufficient coverage, little originality, weak justification of solutions or recommendations.	No submission of the written report.
