

SS4718: FORENSIC CRIMINOLOGY

Effective Term

Semester A 2022/23

Part I Course Overview

Course Title

Forensic Criminology

Subject Code

SS - Social and Behavioural Sciences

Course Number

4718

Academic Unit

Social and Behavioural Sciences (SS)

College/School

College of Liberal Arts and Social Sciences (CH)

Course Duration

One Semester

Credit Units

3

Level

B1, B2, B3, B4 - Bachelor's Degree

Medium of Instruction

English

Medium of Assessment

English

Prerequisites

SS3300 Criminology or SS2030 Introduction to Criminology or its equivalent

Precursors

Part II Course Details

Abstract

This course aims to help students understand theories and practices of forensic criminology. It enables students to examine how forensic sciences and criminology work in practice and how criminology influences forensic study. The course will

explore the nature and scope of forensic criminology, evaluate the roles of public and private security practices in the fields of forensic criminology. The course equips students with valuable skills to devise procedures for crime detection and prevention.

Course Intended Learning Outcomes (CILOs)

CILOs	Weighting (if app.)	DEC-A1	DEC-A2	DEC-A3
1 To demonstrate an understanding of major theories, models, and concepts contributing to the development of the forensic criminology and its related disciplines;	20	x	x	
2 To recognize the strong influence of forensic criminology in its effective application in the criminal justice system;	30	x	x	
3 To examine the role of forensic and behavioral sciences in criminal investigative strategies, offender treatment programs, and victim recovery plans and	20	x	x	x
4 To examine the effectiveness of forensic criminological theories and models in explaining specific crimes.	30	x	x	x

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to real-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

Teaching and Learning Activities (TLAs)

TLAs	Brief Description	CILO No.	Hours/week (if applicable)
1 TLA 1: Lectures	With the help of PowerPoint and lecture notes, students can acquire basic concepts and knowledge on the academic subject.	1, 2, 4	
2 TLA 2: Readings	Reading materials on the academic subject are assigned to students.	1, 2, 3, 4	

3	TLA 3: Video Documentaries Watching, Worksheets, and Interactive Exercises	Students are required to engage in self-reflection on the video documentaries related to the academic subject, and to participate in interactive exercises with help of worksheets.	1, 2, 3, 4	
4	TLA 4: Individual Assignment, Group Research Paper, and Group Research Presentation	Students are required to conduct a critical review and research on a specific topic within the field of forensic criminology.	1, 2, 3, 4	

Assessment Tasks / Activities (ATs)

ATs	CILO No.	Weighting (%)	Remarks (e.g. Parameter for GenAI use)
1	AT1: Quizzes	1, 2, 3	20
2	AT2: Video Watching, Worksheets, and Interactive Exercises	1, 2, 3	10
3	AT3: Individual Assignment	2, 3	20
4	AT4: Group Research Paper	2, 3	40
5	AT5: Group Presentation	2, 3	10

Continuous Assessment (%)

100

Examination (%)

0

Assessment Rubrics (AR)**Assessment Task**

1. Quizzes

Criterion

1.1. Ability to acquire a good knowledge of concepts and theories

Excellent (A+, A, A-)

High

Good (B+, B, B-)

Significant

Fair (C+, C, C-)

Moderate

Marginal (D)

Basic

Failure (F)

Not even reaching marginal levels

Assessment Task

2. Video Documentaries Watching, Worksheets, and Interactive Exercises

Criterion

- 2.1. Ability to grasp the core concepts and messages as presented in the video documentaries
- 2.2. Ability to contribute to class by offering ideas and answers, and asking constructive questions
- 2.3. Ability to provide critical constructive feedback

Excellent (A+, A, A-)

High

Good (B+, B, B-)

Significant

Fair (C+, C, C-)

Moderate

Marginal (D)

Basic

Failure (F)

Not even reaching marginal levels

Assessment Task

3. Individual Assignment

Criterion

- 3.1. Ability to critically analyse and synthesise relevant literature
- 3.2. Ability to produce clear, logical, and critically analysed report
- 3.3. Ability to demonstrate overall good organization and scholarly writing style, to comply with research ethics, and to show no evidence of academic dishonesty

Excellent (A+, A, A-)

High

Good (B+, B, B-)

Significant

Fair (C+, C, C-)

Moderate

Marginal (D)

Basic

Failure (F)

Not even reaching marginal levels

Assessment Task

4. Group Research Project

Criterion

- 4.1. Ability to critically analyse and synthesise relevant literature
- 4.2. Ability to identify valid research questions/variables or hypotheses for the study
- 4.3. Ability to formulate clear, logical, and detailed plan on research methodology and data analysis
- 4.4. Ability to demonstrate superior execution of research procedures and statistical analyses
- 4.5. Ability to produce clear and logical report of research findings
- 4.6. Ability to demonstrate correct and critical interpretation or discussion of research findings in relation to previous studies, and to offer implications and limitations of the study
- 4.7. Ability to demonstrate overall good organization and scholarly writing style, to comply with research ethics, and to show no evidence of academic dishonesty

Excellent (A+, A, A-)

High

Good (B+, B, B-)

Significant

Fair (C+, C, C-)

Moderate

Marginal (D)

Basic

Failure (F)

Not even reaching marginal levels

Assessment Task

5. Group Presentation

Criterion

- 5.1. Ability to deliver a clear and concise verbal presentation
- 5.2. Ability to articulate collective reflection
- 5.3. Ability to show good responsibility in taking one's share of group tasks

Excellent (A+, A, A-)

High

Good (B+, B, B-)

Significant

Fair (C+, C, C-)

Moderate

Marginal (D)

Basic

Failure (F)

Not even reaching marginal levels

Part III Other Information

Keyword Syllabus

Basic Concepts

- Definition, history, development and scope of forensic criminology.
- Understanding how psychology, chemistry, legal knowledge, and theories of crime contribute to the development of forensic criminology and related practices.
- Debating how criminology and forensic science work in practice and how criminology influences forensic study.
- Developing research and professional skills in evaluating and using forensic criminology. Learning research methods used in forensic criminology and the resulting ethical problems.
- Analyzing how forensic psychologists and criminologists make contributions to crime investigation, criminal profiling, and expert testimony.

Crimes, Psychology and Forensic Sciences

- Is criminal behaviour learnt from media or in-born? Examining which factors come first: DNA, media influence, psycho-social backgrounds, or peer influence?
- Why are the factors which influencing people commit violent and sex crimes? Examining advanced theories of criminal behaviors. Does indecent assault or rape normally occur in unfamiliar settings?
- Understanding the crime scenes and legal contexts of sexual offences: Forcible rape, friendly rape, sexual harassment and child molestation.
- How do criminological and psychological studies inform approaches to effectively detecting crimes and combating crime?
- How do we protect ourselves from property loss or personal dangers? How forensic science and criminology work together to prevent and detect crime, arrest suspects, and deal with offenders in the society.

Application of Forensic Criminology

- What forensic criminology is, and how it works? Examining how useful forensic criminology is – from theories and research to application of strategies.
- What is criminal profiling? Crime reconstruction, its history and applications.
- Understanding why some individuals become hardcore criminals.
- How the use of forensic sciences, logical reasoning, and victimology are employed to interpret the events that surround a crime.
- Understanding high-tech crime and internet technology in support of criminal activities.
- Sketching of crime scenes, criminal profiling and collection of physical evidences
- Crimes, forensic sciences, and jurisdiction: law, code and authority
- Forensic application and homicide: cause of deaths: examination in drowning, burning, firearms, strangulation, and throttling, poisoning and natural deaths.
- Forensic application and narcotic and psychotropic drugs: examination of poisonous substance, detection of drug trafficking, blood test, and urine test.
