

## Dripping, Jetting, Drops and Wetting: The Magic of Microfluidics

### Professor David Weitz

- Mallinckrodt Professor of Physics and of Applied Physics, Harvard University
- The Franklin Institute Bower Award and Prize for Achievement in Science Award
- Member, National Academy of Engineering, National Academy of Sciences, American Academy of Arts and Sciences and Chinese Academy of Engineering

**Date:** 4 December 2024 (Wednesday)

**Time:** 2:30 pm - 3:30 pm

**Venue:** HKIAS Lecture Theatre,  
LG/F, Academic Exchange Building, City University of Hong Kong

.....

The Office of the Vice-President (Research) is pleased to announce the upcoming Research Seminar lecture, featuring the intriguing topic of **“Dripping, Jetting, Drops and Wetting: The Magic of Microfluidics”**. The lecture will be held on 4 December 2024 (Wednesday). **Professor David Weitz** will be the esteemed speaker for this event to provide a comprehensive review of key concepts in Microfluidics in the Bioscience Industry.

You are cordially invited to attend the event.
